## Sunday

After Adam and Eve disobeyed and ate the fruit from the tree of Knowledge of Good and Evil, they had to leave the beautiful Garden of Eden.

But God didn't just leave them to die; instead He promised that Jesus would come one day to die in their place. To show them what this would be like, God told them to sacrifice a lamb, on an altar of stones.

Now Adam and Eve had two sons; the first was named Cain and his younger brother was named Abel. Cain like to garden and Abel became a shepherd. Abel loved and obeyed his parents and God, but sadly, Cain listened to Satan. Instead of bringing a lamb for the sacrifice, like Abel did, Cain brought some of the food he had grown in his garden. God accepted Abel's sacrifice, but not Cains, because he had not obeyed God; this made Cain angry with his brother.

One day Cain asked Abel to come out to the field with him, and while they were there, he attacked his brother and killed him.

Later, God asked Cain, "Where is your brother?"

"How should I know?" Cain said.

Then God said, "What have you done? You have murdered your brother, now you must leave. You will not be a farmer any more; from now on you will be a homeless wanderer."

Cain cried "My punishment is too great! Anyone who finds me will kill me!"

But God replied "No, you must live with what you have done."

What happened? \_\_\_\_\_

Don't worry if you don't know what to say, Matthew 10:19<sup>NLT</sup> says "God will give you the right words at the right time."

You might say something like: "The Bible says that God created everything including humans in only one week, and that's what I believe." Or "Your ancestors might have been monkeys, but I believe God created my ancestors, their names were Adam and Eve!"

They might ignore you, or say that they believe something else, but that's OK. When you are not afraid to let people know what you believe you are being a witness for God.

## Monday

This term we are learning about how the Bible says God created the world, yet very few people today know or believe it. In fact they believe the opposite! Here is a summary:

Creation	Evolution
Everything was planned and made by God	Everything was came about by accident
Everything was made in 6 days	It evolved over millions of years
People, plants and animals were made and lived together	Simple life forms turned into more complicated ones, until finally animals changed into people.
The 1 <sup>st</sup> people were very smart and sophisticated	The 1 <sup>st</sup> people were not very smart; they were like animals living in caves
Before sin, there was no death.	There has always been death
After sin, things became worse and worse	Everything is becoming better and more complex
The earth is only a few thousand years old	The earth is billions of years old

If you decide to believe what God says about the beginning of the world you will soon realise that you are surrounded by people who believe differently. Nature shows, books and most school teachers will all tell you that things are billions of years old, that animals and birds evolved from other creatures and that people evolved from animals. When they find out you don't believe that, they might think you are crazy; they probably won't believe you.

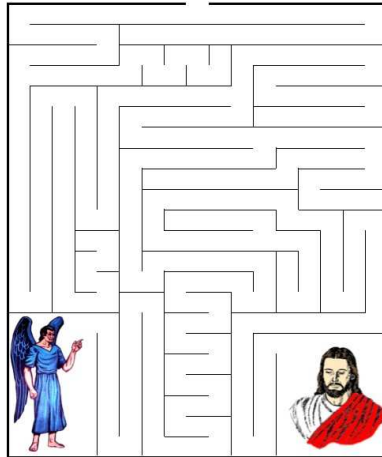

Last week you read about how Satan tricked Adam and Eve; He convinced Eve that the fruit looked good and would make her more like God. He whispered into Adam's mind, that Adam would loose Eve if he didn't join her in eating the fruit. He convinced Cain to bring the wonderful things that he had grown instead of what God asked for; he suggested to Cain that it was Able's fault God didn't accept his sacrifice. And he has convinced the majority of the world today that there is no God or that God could not or did not make the world in 6 days. He will do anything he can to trick people.

## Wednesday

Find the underlined words in the following story:

Jane and John have been using stickers and stamps to make birthday cards. Jane becomes angry and shouts that John has taken the last sticker. What do you think would happen if John said "Too bad, I got it first?" Instead John asks Jane why she is angry and then he says "So you are upset because you think I have more stickers than you and this should be yours?" Jane agrees, so John says "I can see why you are upset, shall we count our stickers and see who has the most?" Mummy comes in and sees the children working together nicely.
